Legal and Technical Issues in Aging Infrastructure, Saving the Future from the Past

Panelists, James Binder, RPE, Principal, Alternative Resources Inc., Teno West, Esq., Partner, Holland & Knight, LLP, Steven A. Torres, Esq. City Solicitor, City of Taunton, Massachusetts

Case Studies, models, sample procurement documents and contracts, competitive service delivery models, regional, district and inter-municipal operations and management of infrastructure resources, technology specific procurement, special legislation, design-build delivery models, long term lease and management, applicable state and federal regulatory and assistance programs.

An experienced panel of engineering, legal and owner's representatives discuss innovative delivery methods, processes and contracts to address the repair, replacement, operations, management and capital improvement, including design options and the legal implications surrounding public water and wastewater utilities. The panel will utilize actual projects as examples of successful utility improvement programs.
