Bathrooms and other common areas sanitized with HOCl every other hour. Extra 5 minutes added to hourly breaks to allow for sanitizing pool surfaces. Thermometer, KN95 masks distributed to staff for first aid rendering. First aid limited to management only to decrease PPE burn rate. Surgical masks distribute to cashier staff.
Special Events	Green	Tribute to Liberty will go on as planned.

Businesses/Private Entity Status:

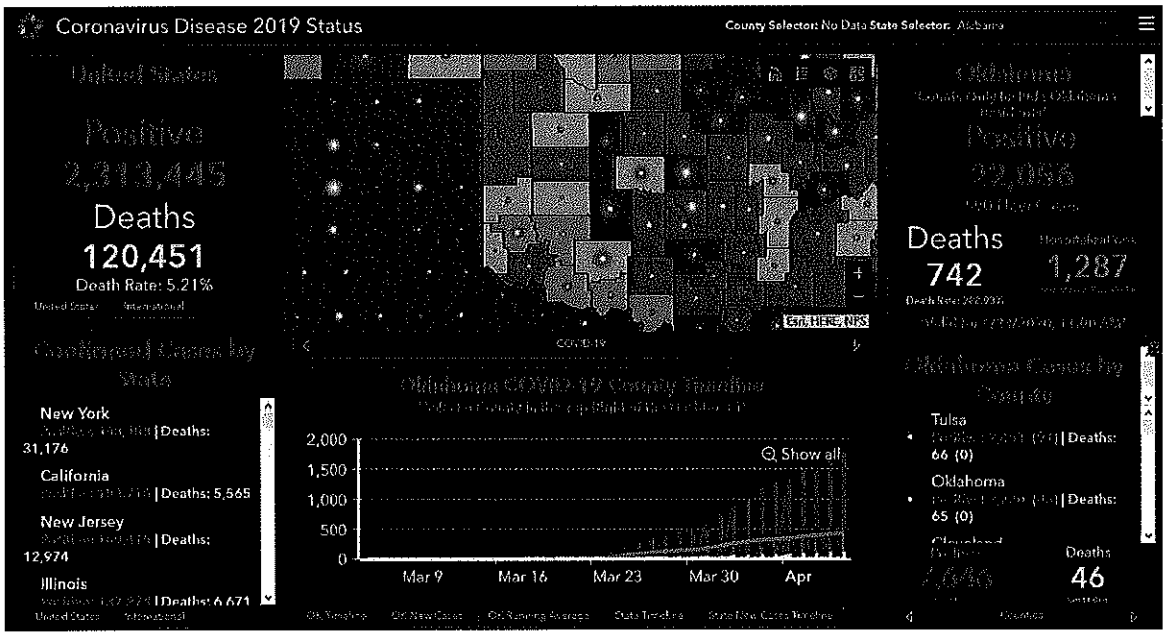

Phase III began June 1.	Midwest City is implementing Governor's "Open Up and Recover Safely (OURS)" plan. Businesses may resume unrestricted staffing at worksites, but should follow recommended protocols. Businesses previously operating by appointment only can now accept walk-in clients. Summer camps are allowed to open. Limited visitation at hospitals may be reinstated. Visitation at long-term care facilities remains suspended, except for end-of-life situations. Those 65 and older and vulnerable populations are still encouraged to stay home.

Lifeline Key:

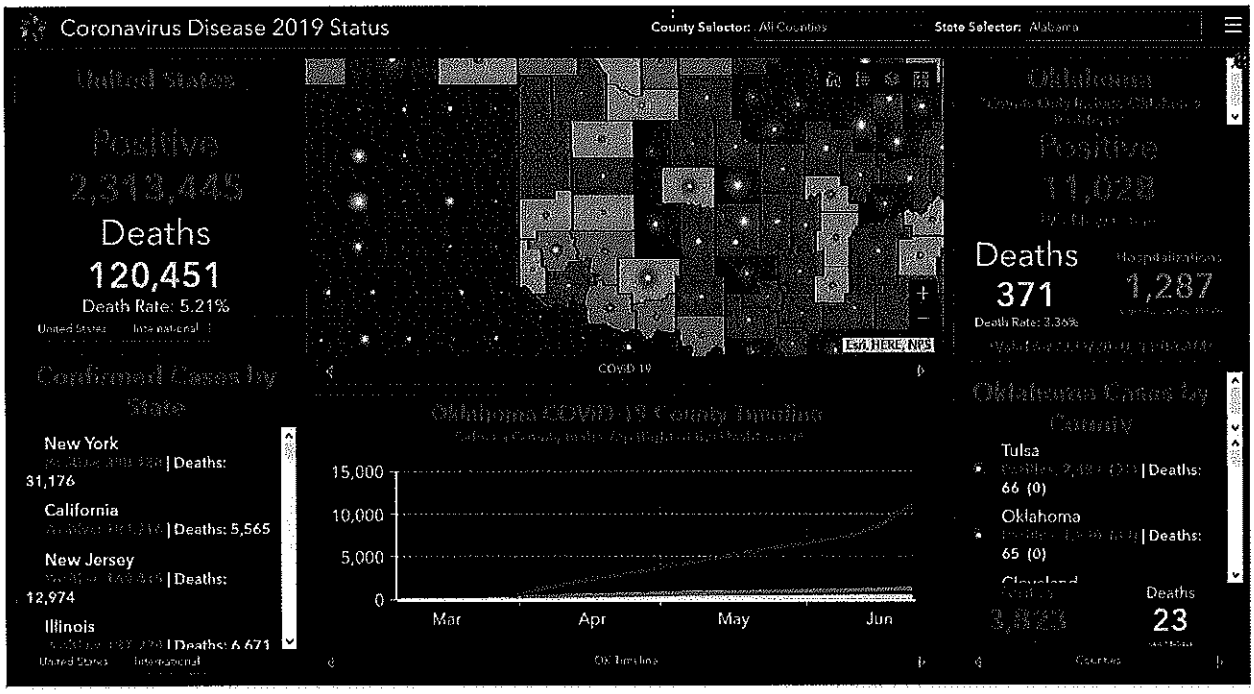

Red	Lifeline services disrupted, no solution identified or in progress
Yellow	Lifeline services disrupted, but solution in progress with estimated time to stabilization identified
Green	Lifeline services stabilized, re-established or not impacted. Note components may still be severely impacted.
Grey	Extent of disruption and impacts to lifeline services is unknown

OSDH Dashboard:

This is what the dashboard is showing, the numbers above came from the Acute Disease Service this morning. Obviously there's a huge discrepancy.

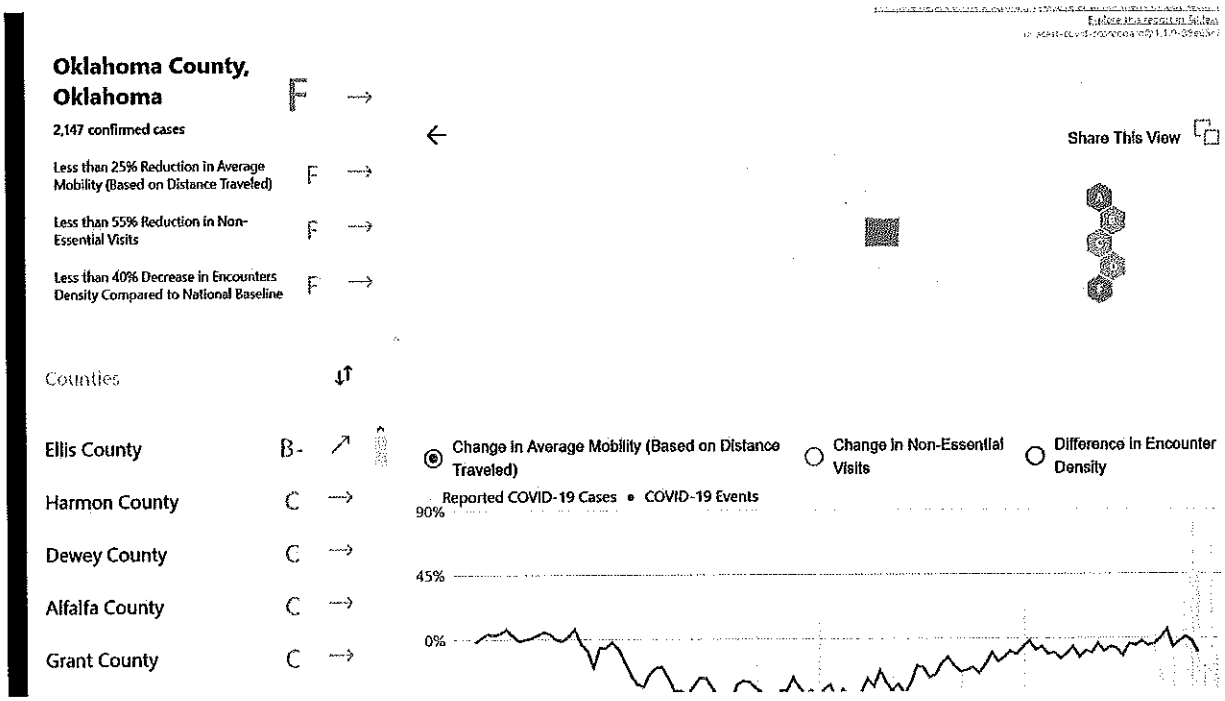

I waited about 20 minutes and refreshed the website, and the numbers fixed themselves. How interesting is that?

Social Distancing Scoreboard:

There is up to a 3-day lag in the data on this site. Oklahoma County still has a big fat F grade. Individual city data is not currently available. The low grade is probably a result of things reopening.

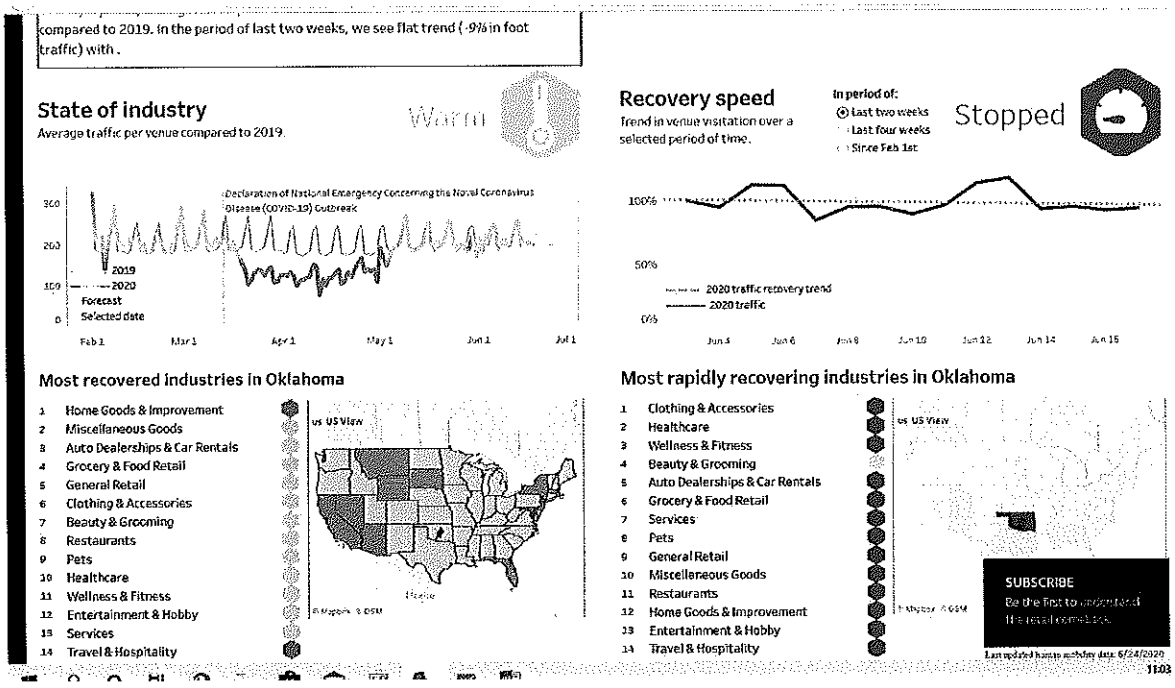

Retail Impact Scoreboard:

https://www.unacast.com/covid19/covid-19-retail-impact-scoreboard

This website looks at retail recovery by industry and by state. The data is about a week behind.

IHME projections below:

Arizona tops the list for daily infections again today.

Midwest City Emergency Management
Situation Update
June 23-2020 1130 hours

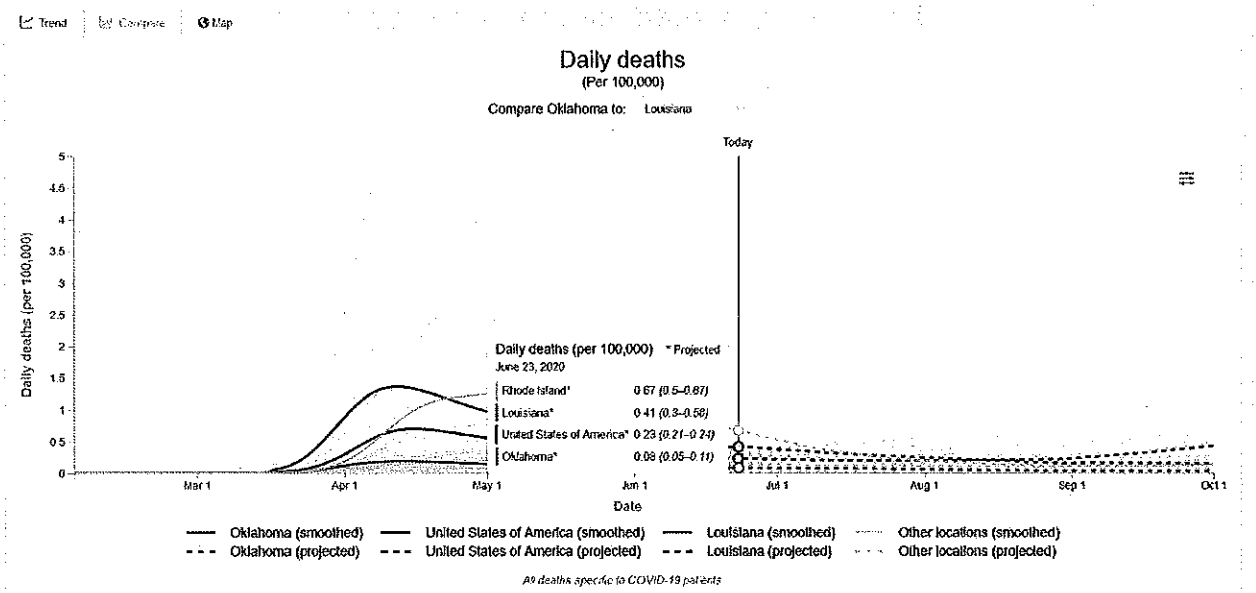

Total projected deaths in Oklahoma has increased to 587 by October 1. This is a significant increase.

The IHME has added a compare feature where you can compare Oklahoma to any other state, or to the whole country. Here's the link if you want to take a look.
https://covid19.healthdata.org/united-states-of-america/oklahoma

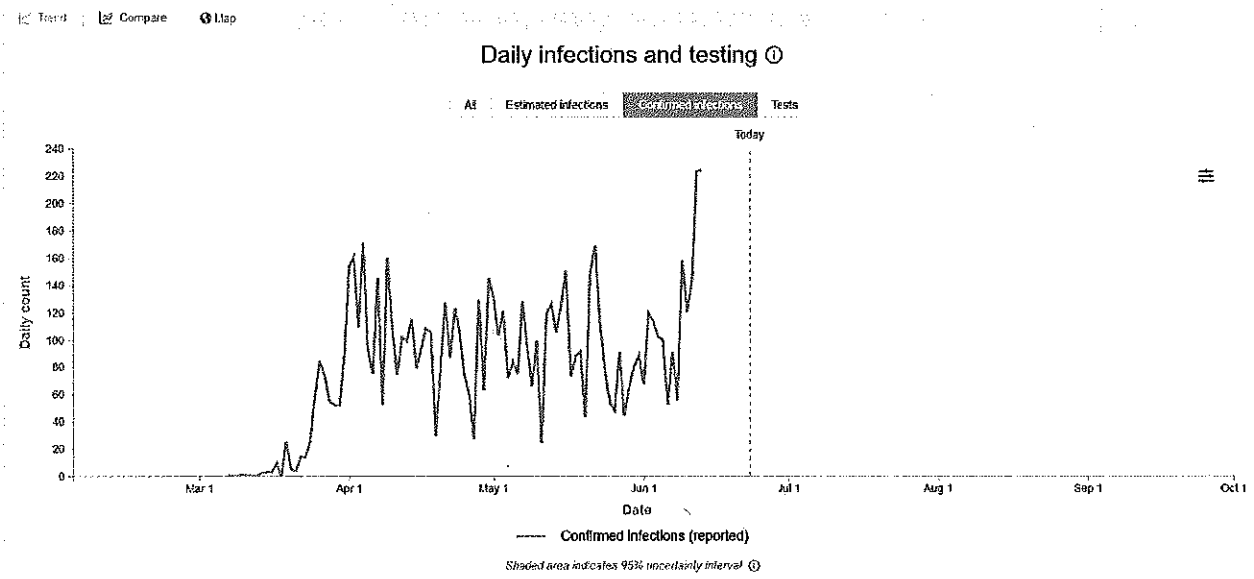

Per 100,000. I compared with Rhode Island for daily, and New York for total since they currently have the highest numbers. Also Louisiana. Because Bert.

Midwest City Emergency Management
Situation Update
June 23-2020 1130 hours

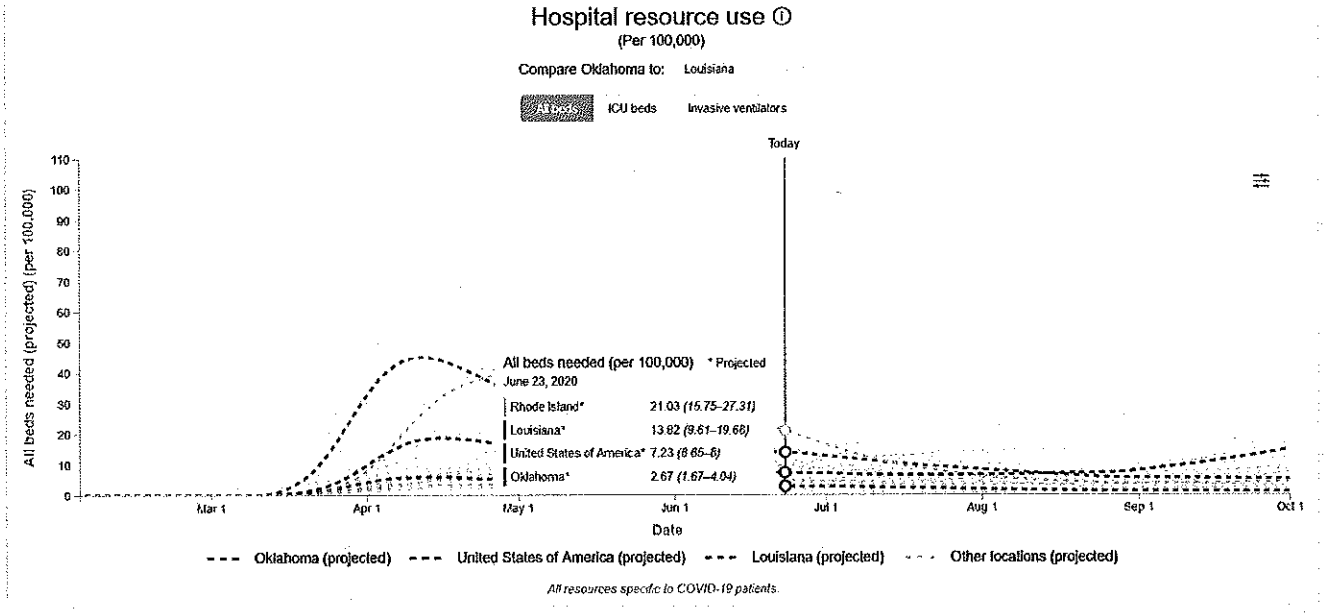

This is looking at confirmed infections rather than estimated, that's the reason for the lag in dates. This is a trend report, it goes until June 13.
